## Education

### Techno International New Town

Master of Computer Applications

Nov 2023 – Aug 2025

Kolkata, West Bengal

### Kazi Nazrul University

Bachelor of Computer Applications

June 2019 – Oct 2020

Durgapur, West Bengal

## Experience

### Prodigy InfoTech

SDE Intern

Apr 2024 – May 2024

Mumbai, Maharashtra

- Designed and implemented a temperature converter application, enhancing user experience and functionality. Collaborated with team members to troubleshoot and debug software applications, ensuring optimal performance and user satisfaction.
- Created a web scraping program to extract valuable data from online sources, contributing to data analysis and decision-making processes.

### Accenture

Cloud Support Associate

Mar 2023 – Sep 2023

Gurugram, Haryana

- Proficient in Azure environment and utilizing ServiceNow to streamline workflows and enhance operational efficiency. Automated repetitive tasks using scripts and tools.
- Possess comprehensive knowledge and hands-on experience with Amazon Web Services (AWS), ensuring seamless cloud service delivery. Executed comprehensive Application Quality and Analysis processes
- Investigated and resolved technical issues reported by customers, encompassing computing, storage, networking, and database functionalities.

### Think And Learn

Quality Assurance

Oct 2021 – Apr 2022

Bangalore, Karnataka

- Conducted comprehensive data analysis to identify areas for process improvement, leading to enhanced productivity and cost savings.
- Collaborated with IT teams and external vendors to troubleshoot and resolve technical issues promptly, minimizing downtime and ensuring continuous operations.
- Created effective maintenance and regular updates for IT infrastructure, including servers, databases, and networks, to optimize performance and security.

## Projects

### Portfolio Website | HTML, Bootstrap, CSS, JavaScript, API

🐙 [Portfolio Website](#)

- Developed a responsive portfolio website showcasing technical skills and projects using HTML, CSS, and JavaScript. Optimized website performance through image compression, lazy loading, and minification techniques for fast loading times.
- Built an interactive user interface with a clean and modern aesthetic to highlight key information and projects effectively. Developed security measures such as SSL certificates, secure authentication, and data encryption to protect user data and enhance trust.

### Buzzly | Node.js, Express.js, Socket.IO

🐙 [Buzzly](#)

- Developed Real-Time Chat Application in Flutter: Built a high-performance, real-time chat application with Flutter, integrating Socket.IO to facilitate efficient, low-latency user connections and seamless message delivery.
- Implemented User-Centric UI/UX Enhancements: Designed and optimized a user-friendly interface with responsive layouts, including a dark mode toggle and notification sounds, improving user experience and engagement across mobile and web platforms.

## Technical Skills

**Programming Languages:** Python, SQL

**Web Development:** HTML, CSS, JavaScript, Django, Bootstrap, Node.js

**Databases/Tools:** MySQL, MongoDB, phpMyAdmin, VSCode, PyCharm, Eclipse, PowerBI, Docker

**Version Control:** Git, GitHub
